Green Toothpaste?

And God saw every thing that he had made, and, behold, [it was] very good. And the evening and the morning were the sixth day. (Genesis 1:31)

As a child, Isao Kubo's grandmother always told him to drink green tea after he ate something sweet. Later, as a University of California chemist, Kubo has shown that his grandmother's advice was scientifically sound.

It's been known for many years that tea can help fight dental cavities. A substance in the tea helps prevent the bacteria that cause cavities from latching onto the surface of a tooth. But researchers found that this effect was too small to make tea as effective as it is known to be in preventing cavities. This led scientists to continue their search for something else in tea that makes it so effective.

Kubo discovered that a class of molecules found in abundance in green tea actually kills the bacteria that cause cavities. Tests show that these natural chemicals, while harmless to us, are also able to kill at least two different kinds of molds, three yeasts and eight kinds of bacteria. It is effective against some of the bacteria that cause gastrointestinal disease and acne. However, you don't have to drink green tea to take advantage of this powerful, natural cavity fighter. It is also found in coriander, sage, thyme, and is added to some ice creams, candy, chewing gum, and baked goods. Because of this research, we may someday find it in toothpaste.

One wonders whether, in the perfection that existed before sin, the creation was filled with many additional natural substances that prevented the health problems we experience today.

Missionary of the Month

Jeff & Kim Smith and Family

BIMI - Church planting in Ottawa

It is a blessing to know that you are praying for us especially in this month.

Some prayer requests that we have:

- 1) Please pray that people will continue to return to in-person Church following all the pandemic closures.
- 2) Please pray that our newly saved (Donna and Brandon) will realize their need to be in Church regularly.
- 3) Please pray for some unspoken decisions that our family is making at this time.

The Littles - St. Lucia

We are heartened by the overwhelming amount of support and encouragement we have received over this last month since we made our intentions known to the pastors of our supporting churches. For those of you who may not have heard; in short, we believe the Lord is moving us on from ministry here in St. Lucia to a different place of service. We arrived at this decision through much prayer, counsel, and seeking the Lord, and though we do not yet know where our next field of service will be, we are trusting Him to guide us and lead our paths to that place. Thank you again for your prayer and support of us through this time. We are grateful for your love for the Lord, and for us His servants. This coming Sunday is "Back to School Sunday." One of our supporting churches gave us their VBS offering toward this so we are excited to pass out backpacks and school supplies as well as help out some of the less fortunate in our church and community with school uniforms, registration and book fees, and meal plans. We are planning a baptismal service and have a number of people who are excited about following the Lord in believer's baptism in obedience to His command. Our prayer is that these believers, and really all the believers in the church, would continue to grow in their knowledge of the Lord, their faith, and their desire to continue following Jesus.

Every Day With Jesus

Text and Music by

Wendell and Robert C. Loveless, 1959

Every day with Jesus
 Is sweeter than the day before,
 Every day with Jesus,
 I love Him more and more;
 Jesus saves and keeps me,
 And He's the One I'm waiting for;
 Every day with Jesus
 Is sweeter than the day before

"God never hurries. There are no deadlines against which He must work. Only to know this is to quiet our spirits and relax our nerves." A.W. Tozer

Just For Fun

- Not only did I fall off the diet wagon, I dragged it into the woods, set it on fire and used the insurance money to buy cupcakes.
- Having a dog named Shark at the beach was a mistake.
- I wish I had a pair of skinny genes.
- Don't worry about the Delta. We have the Alpha and the Omega.
- I can only do math when I'm wearing open-toed shoes.
