Moth Talk

And when all things shall be subdued unto him, then shall the Son also himself be subject unto him that put all things under him, that God may be all in all.
(1 Corinthians 15:28)

Scientists are learning that there is much more going on among those moths that flutter around your yard light than they ever expected. Scientists have long known that moths communicate with each other, using hormones called pheromones. A female moth who is ready to mate will send a pheromone into the air. Males who sense the pheromone will seek out the female. Research now shows that the moths' system is much more elegant than this.

The female who wants to contact a male doesn't simply send out a scented invitation. Rather, she releases her pheromones in a series of pulses. These pulses are released at the rate of from one to more than two pulses per second. Scientists used powder to study the pulses. To their surprise, they discovered that the pulses can be propelled for up to a meter. That's equivalent to you being able to blow out a candle from 60 feet away! These pulses had researchers puzzled. Then they realized that the pulses would help male moths locate a female as they were drawn near by the scent of the pheromone. This seems to be confirmed by the fact that the male's antennae send a signal to its brain that has the same frequency as the female's pulses.

The creation shows much more than design. Each detail of the creation has the elegant intricacy of a master Designer. This is, in part, what St. Paul refers to when he writes that the very Godhead of the Creator can be seen in the creation.

A Note from Steve and Ann (Redding) Marx

Several years ago a Cessna 206 in good condition was donated to MAF headquarters. Last month, Juan Carlos, a MAF pilot/mechanic, working in Central America and Mexico for 23 years, ferried the 206 to Guatemala. Here in our parts purchasing dept., we have been buying parts for this "new" 206, including having the propeller overhauled. Ann and I are encouraged as we anticipate its ministry. Please join us in praising God for this aviation tool which will soon be used supporting evangelism and discipleship in Guatemala. Through Jesus' love,

BIMI - Church planting in Ottawa

We have all had some French learning. Our children had French for their grade school language elective. Our French is on hold for now. We have very few opportunities to practice or apply our French in our current circles and ministry. We do greet people in French when the time is right and that seems to be appreciated.

Some prayer requests that we do have:

- 1) Please pray that people will continue to return to in-person Church following all the pandemic closures.
- 2) Please pray that our newly saved (Donna and Brandon) will realize their need to be in Church regularly.
- 3) Please pray for some unspoken decisions that our family is making at this time.

Bayanihan Children's Home

Our children are now enjoying their summer vacation. Some are having music classes such as string instruments and vocal lessons.

Last time we mentioned about our old (20 years) rusty roof gutters in our main hall. But now, we thank God for your help for brand new ones and all stainless! We are so thankful.

Our school building washrooms projects is progressing even under many lockdowns in our area. All 3 floors have tiles installed and waterlines. We are working on the 4th floor now. We are so excited they will be ready for next school year.

With the Delta variant, our country has put us again under lockdown. Many of our children had flu and were isolated just to be sure it wasn't Delta. The older ones had vaccines. They are all healed now and OK.

Every Day With Jesus

Text and Music by

Wendell and Robert C. Loveless, 1959

Every day with Jesus
Is sweeter than the day before,
Every day with Jesus,
I love Him more and more;
Jesus saves and keeps me,
And He's the One I'm waiting for;
Every day with Jesus
Is sweeter than the day before

Just For Fun

- I want to sleep but my brain won't stop talking to itself.
- A man is suing Smart Water for not making him smart, so I'd like to announce my lawsuit against Thin Mints.
- When one door closes, another one opens. Other than that it's a pretty good car.
- Me: It doesn't have a tail so I'm pretty sure it's a hamster. Tech Support: Okay fine. Right-click the hamster.
- Golf: the adult version of an Easter egg hunt.
- I went bald but I still kept my comb. I just can't part with it.
