Deep Diving Wonders

And God created great whales, and every living creature that moveth, which the waters brought forth abundantly, after their kind, (Genesis 1:21a)

The water pressure around a human diver increases as he goes into deeper water. As the pressure increases, his blood is able to hold more dissolved oxygen. Our blood

also absorbs the nitrogen in the air around us. If a diver were to move toward the surface too quickly, the nitrogen would start to bubble out of his blood. These bubbles can block the flow of blood to muscles, organs, and even the brain, leading to death. This painful condition is called the bends.

Scientists have wondered why seals don't get the bends. Weddell seals dive to far greater depths than human divers would consider, using even the best equipment. The fact that they are breaking every diving rule in the book means that almost every dive should lead to a fatal case of the bends.

To find the answer to this mystery, scientists outfitted four seals with scientific backpacks. These allowed scientists to record the seals' heart rates, sample blood, and record the depths of their dives. The deeper the seals went, the more nitrogen accumulated in their blood. Just before the nitrogen reached a dangerous point, it levelled off. Scientists say that the tiny sacks in the lungs that absorb oxygen and nitrogen shut down. Then the seals' heart, liver and blubber begin to absorb the nitrogen from the blood. The air exchange sacks in the lungs reactivate as the seal ascends to the surface. Surely the amazing biology that allows the seal to make his living deep in the ocean could only have been designed by our Creator God.

Betty Noel

We sadly announce the passing away of Betty Noel in the early hours of Monday, August 30/21. We express our condolences, sadness and prayers to Russell and his family on the passing away of his wife. Betty had been doing well with the radiation treatments for brain cancer, but a set back put her in the hospital where she breathed her last here on earth...it was unexpected and quick. We remember Betty here at Berean as a quiet lady, warm and friendly with a wonderful smile and evident love for the Lord Jesus and His Word and people. We will miss her around here. But even though we sorrow, we sorrow not as those who have no hope... we know that Betty is Home with the Lord and that we will see her again someday in the resurrection of the saints! Pray for Russell as he adjusts to life without Betty. The funeral was a graveside service yesterday at 1pm at Forest Lawn Cemetery.

Missionary of the Month

Liana Wiebe, Regina SASK

God has been good to us! When many of the provinces in Canada have been under strict health orders, and churches have not been able to gather, here in Saskatchewan, we have still been able to meet, even though our numbers were reduced. What a blessing that has been! An added blessing is that Carrie & I have been able to continue ministry to the children! It is such a privilege and joy to, week by week, build a relationship with these special children, and teach them the truths of God's Word. Several of our children are young and have not yet trusted Christ as their Saviour. But as we pray for them and continue to teach, the Lord is giving them understanding. It is so exciting to see them learn and remember more each week. Would you please pray for the salvation of Beryl, Elyza, Mikayla, Anna, Ean, and Shyrel?

Happy Birthday

Tomorrow...Audrey Lawrence

Sept 13...Manoel deSouza

Sept 17...Mel Mepsted

Oct 1...Judy Prout

Bearing Precious Seed: We are still mailing to the province of British Columbia. We have mailed over 600,000 John & Romans and are on course to finish the province either late this year or into the spring of next year.

Last Week's Attendance
SBS 10, AM - 33, PM - 14
Prayer Meetings - 4 + 8

Just For Fun

- People said "Follow your dreams" so I went back to sleep.
- The ability to speak several languages is an asset, but the ability to keep your mouth shut in any language is priceless.
- Friends are the chocolate chips in the cookies of life.
- Funny thing about getting older. Your eyesight starts getting weaker, but your ability to see through people gets much better.
- Sometimes you just have to let God fix it, because if you fix it, you're going to jail.

We are planning to make a 25th anniversary history book for Berean. we are looking for photos (printed and/or digital) and personal remembrances from years 2007-Present. if you are able to help with these resources, please let Pastor Bruce know.

Bobby & Joanna Burdett Mission to Madagascar

At the end of our last prayer letter, we asked you to pray for Bobby as he went to Kenya for his biannual flight review. God answered prayers in an amazing way! He really did move the heart of kings to get Bobby and another missionary friend to Kenya and back home safely. At one point, they had to request permission to fly from the President of Madagascar's office. They were in the right place at the right time (sometimes with only 15 minutes to spare before a country-wide lockdown took effect!). As each obstacle presented itself, God provided the solution. Eliana and I were just fine here at home. Thank you for praying!
