Plants Focus Light

And he shall be like a tree planted by the rivers of water,
that bringeth forth his fruit in his season;
his leaf also shall not wither; (Psalm 1:3a)

In many ways, a plant is like a machine that changes the energy of sunlight into food energy that is needed by the rest of the living world. The energy which runs the plant is light. Now, if you were going to design a better, more efficient plant, how might you do it? Obviously, one way to improve a plant would be to create one that can do its job with less light. But remember, the plant

cannot store more energy than it receives. And if the plant was too sensitive to light, a strong dose of sunlight could kill it. The obvious solution is to outfit the plant with tiny lenses which focus even dim light into the chemical centres where photosynthesis takes place. Due to man's ignorance, modern science has often regarded plants as if they were simple, unsophisticated forms of life. Now scientists have discovered that many plants do indeed have special cells which focus and concentrate the available light into the very centres where it is needed. One plant's shaded leaves were found to intensify available light by 26 times. And if the light gets so strong that it could damage the leaves, the light is focused onto cells which can absorb the extra light.

Plants are much more complex, higher-performance living things than we ever suspected. Plants incorporate designs based on a highly sophisticated knowledge of both chemistry and physics. What a wonderful witness they are to our Creator!

New Bible Study - 1 John

Sunday January 16th will be the beginning of a new Bible study with Joe Scott on the book of 1 John at 9:30 on Sunday mornings. This study will contain essential information for both the young Christian and the seasoned Workman and Woman in Christ service. This practical study of God's word is sure to change something in every one of our lives. I wish to encourage everyone to come and share in the work of the Holy Ghost through this study. Thank you to everyone who attended the previous study in the Psalms.

Reading Thru the Bible in a Year
Reading Thru the Bible in a Year schedules for 2022 are out on the table under the bulletin board...help yourself to one...reading thru the Bible in a year is an excellent way to get the "Big Picture" of God's Word...if you've never read thru the Bible in a year, you can still begin!

A Request From Stephanie (de Souza) Zaiser

We are going to visit my family in BC in April and we are planning to add London to our Itinerary! Our plan is to visit Berean during the last weekend of April. It would be great if someone were willing to host us 😊. Do you think, you could mention this in the Bulletin for us? (If we find someone who would be willing to host us for more than just the weekend, we might even stay a couple more days).

Other than housing it would also be great if someone could pick us up at Pearson Airport. Do you think, you could mention this in the Bulletin for us too? Our plan was to first get to London and then rent a car there. That way we could get around easier than with public transportation and see a few of the folks at Berean. 😊

Gospel Text Publishers:

The future is not for us to know but we do know who holds the future, our Heavenly Father. I want to share with you the two Bible verses I chose when only a young girl. May you tuck them into your heart and mind as you enter 2022.

Proverbs 3:5-6 "Trust in the Lord with all thine heart, and lean not unto thine own understanding. In all thy ways acknowledge him, and He shall direct thy paths."
Psalm 32:8 "I will instruct thee and teach thee in the way which thou shalt go, I will guide thee with mine eye."

Wishing God's richest blessings to you and yours knowing that God is a loving Heavenly Father who will never leave or forsake His children. We look forward to this another year of opportunity to serve Him.

Please pray for the Lord's direction for their next field. They are waiting and trusting the Lord. He led them to St. Lucia, and away from St. Lucia. He will certainly lead them to their next place.

Just For Fun

- I've reached a new level in the culinary arts. I'm now setting off our neighbour's smoke alarm.
- When sheep go to sleep, do they count themselves?
- Employment applications blanks always ask you who to call in an emergency. I think you should write "an ambulance."
- The easiest way to find something lost around the house is to buy a replacement.
- I'm not bossy. I'm aggressively helpful.
